Chapter 1: Links, images, tables

This is the body of the document.

Just a simple table:

| | | |
|---|---|---|
| a | b | c |
| d | e | f |

Another table, but data comes from external CSV file:

| pin | signal_name | rating |
|-----|-------------|--------|
| 1 | VCC | 200mA |
| 2 | Trigger | 1mA |
| 3 | Data1 | 1mA |
| 4 | GND | 200mA |

Headers and Text

Level 1 Section Title

Level 2 Section Title

Level 3 Section Title

Level 4 Section Title

Level 5 Section Title

A normal paragraph.

```
A literal paragraph.
One or more consecutive lines indented by at least one space.
```

```
The text is shown in a fixed-width (typically monospace) font.
The lines are preformatted (i.e., as formatted in the source).
Spaces and newlines,
like the ones in this sentence,
are preserved.
```

It has **strong** significance to me.

I cannot stress this enough.

Type OK to accept.

That really has to go.

Can't pick one? Let's use them **a11**.
