# Chapter 1: Links, images, tables

This is the body of the document.

Just a simple table:

|   |   |   |
|---|---|---|
| a | b | c |
| d | e | f |

Another table, but data comes from external CSV file:

| pin | signal_name | rating |
|-----|-------------|--------|
| 1   | VCC         | 200mA  |
| 2   | Trigger     | 1mA    |
| 3   | Data1       | 1mA    |
| 4   | GND         | 200mA  |

# Headers and Text

## Level 1 Section Title

### Level 2 Section Title

#### Level 3 Section Title

##### Level 4 Section Title

##### Level 5 Section Title

A normal paragraph.

A literal paragraph.  
One or more consecutive lines indented by at least one space.

The text is shown in a fixed-width (typically monospace) font.  
The lines are preformatted (i.e., as formatted in the source).  
Spaces and newlines,  
like the ones in this sentence,  
are preserved.

It has **strong** significance to me.

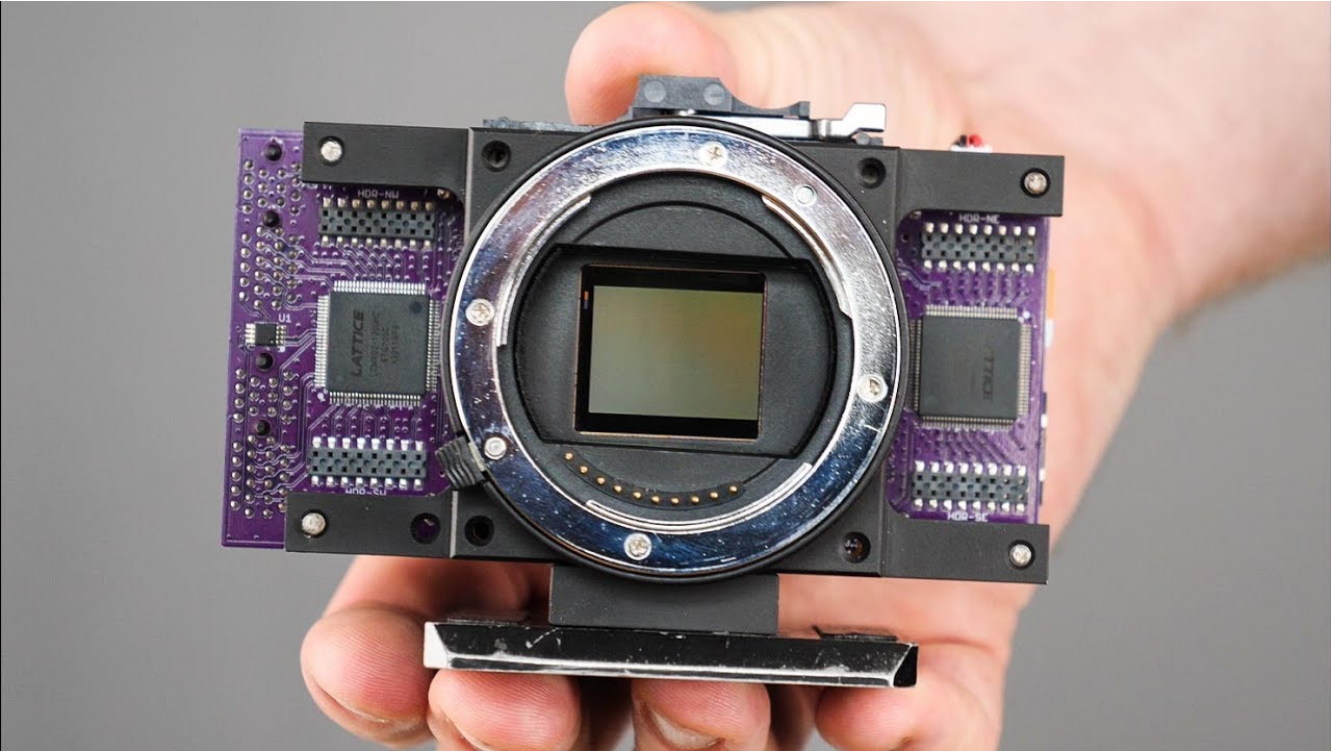

I *cannot* stress this enough.

Type **OK** to accept.

That **really** has to go.

Can't pick one? Let's use them **a11**.
